

Submitting Documents to the State Controller's Office During the COVID-19 Outbreak

Many government documents submitted to the State Controller's Office (SCO) require an original ("wet") signature in order to be processed. During the COVID-19 outbreak, SCO has adjusted workplace procedures to more efficiently serve local, state, and federal government departments. For claim schedules and contracts and invoices entered into by departments, SCO will accept all forms of electronic approval from department employees authorized to sign those documents. Departments must retain their original documents for audit purposes.

Human Resources (HR) offices must submit these documents through [ConnectHR](#). For questions, contact ConnectHRhelp@sco.ca.gov.

CEC is a secure self-service portal that allows state employees to view, print, and electronically save their own W-2, leave balances, direct deposit earnings statements, and more. For questions, contact Connecthelp@sco.ca.gov.

Electronic Transaction Process

In an ongoing effort to streamline business processes, and create efficiencies for our customers, SCO encourages departments with their own internal HR systems to consider submitting common transactions electronically for processing. Using the record layouts and instructions found in the links below, agencies can create and submit data files securely to SCO through File Transfer Protocol (FTP) and reduce Payroll Input Process (PIP) entry by generating and submitting data files from their internal systems. This also may reduce the need to mail hardcopy documents or scan and email softcopy documents. This process does not replace PIP, if your department uses PIP regularly, absent an internal HR system, please continue to do so.
